## OBJECTIVE

To leverage my experience as a MERN stack developer to contribute to the development of high-quality web applications. Seeking a challenging role in a dynamic environment that values innovation, collaboration, and continuous learning, where I can utilize my skills and experience to drive business growth. I am passionate about coding and like to learn new things. Strong creative and analytical abilities, as well as team player with a keen eye for detail.

## WORK EXPERIENCE

MERN Stack Developer | Inkprog Technologies Pvt. Ltd.

June 2022 - Present

### ROLES AND RESPONSIBILITIES:

- Worked on a dynamic site project and finished it on schedule.
- Implemented a user-friendly Web application that exceeds the criteria of the client's specifications.
- Collaborated with developers to create user flow charts.
- Produced clear, effective code in order to meet the requirements.

### Inkprog Website - Back-end Developer

- Designed and implemented RESTful API endpoints using Node.js and Express for a leads page, enabling real-time communication between the server and the client-side application
- Created and managed the MongoDB database schema for storing and retrieving leads data, implementing data validation and optimization of query performance.
- Implemented user authentication and authorization features, including password hashing and session management, to ensure secure access to the admin panel and leads page API endpoints.
- Worked collaboratively with cross-functional teams, including designers and project managers, to ensure timely delivery of high-quality software products.

### Time Sheets Management - MERN Stack Developer Intern

- Built and deployed fully functional React based web software from the scratch which included popular and efficient web technologies like Node js, NoSQL, REST API etc.
- React Js 18 takes as the center stage programming language for the frontend section, where user activities, details and content are managed.
- Main features for users like sign up, login, authentication & content management were included in this project and working seamlessly
